

Tokushima City, Tokushima

3 Views of Kenchopia and Mt. Bizan from the Water's Surface

Scenes of cruise boats circling the gourd-shaped Nakazu show the city of Tokushima in a different light, its views of the prefectural office and yacht harbor in front of Mount Bizan reminiscent of Venice. There are also guided tours by boatmen, where the moment you pass beneath the oncoming bridge offers the thrill of an amusement park attraction.

View Spot

Hyotanjima Cruise
