## 37 Experience Art in Nature at Seaside Gallery

This 4-kilometer long beach serves as an art gallery, with works of art printed on T-shirts that serve as canvases. Waves crashing on the shore reflect the T-shirts as they sway in the breeze. The thousand T-shirts lining the beach are a work of modern art, truly a sight to behold. The T-shirt art exhibit is held over the long holidays in May, with other special art exhibits hosted several times a year, featuring quilts and artwork made from driftwood.
