75 Sweeping Views of Seto Inland Sea, Yashima, and the City of Takamatsu

This panorama here lets you look out over the city of Takamatsu, the islands of the Seto Inland Sea, and Yashima, famous for the Genpei War, all at once. The terrace has fences designed so as not to obstruct the view, letting you take in the views while seated on one of the chairs. The guestrooms and baths also offer stunning views at night.
